ACCESS TECHNOLOGY

DOOR PASS

Stand Alone Controller

The DoorPass is our basic access control system for single, stand alone installations.

Key Features

- Simple to use and install
- Two reader (1 of 2 door) controller
- Stand Alone Operation
- Compatible with any card technology
- Anti-Passback & Door Monitoring
- Fast Programming via an embedded keypad
- Easy to upgrade
- Low cost solution

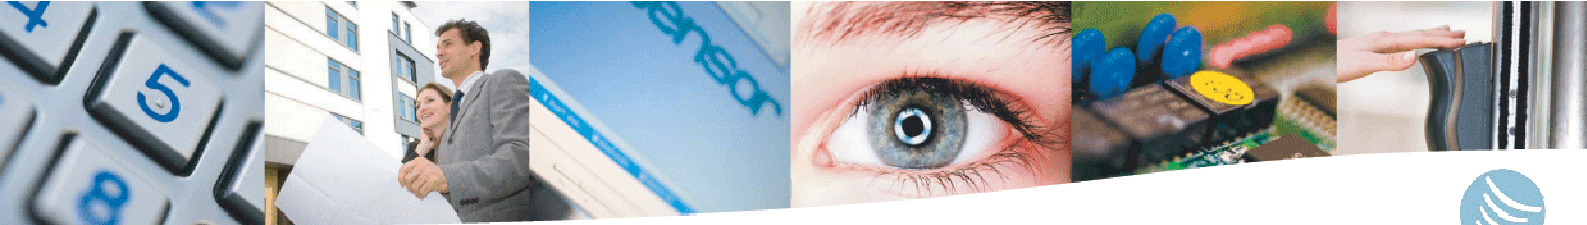

The **Keyboard programming** allows you to carry out all the required commands including the enrolment and deletion of cards, the setting of anti passback, establishing door alarms and outputting the events to a connected printer

The **DoorPass** is capable of reading almost any kind of access control technology making the product as versatile as it is reliable. In addition the unit can be set into anti passback mode ensuring the same card cannot be used to allow multiple users to enter or exit a building.

The **compact 2 door system** can control one door in both directions (entrance and exit) or two separate doors. A bank of 4 inputs allow you to add door contacts, alarms and request to exit (RTE) switches. The product can also be easily upgraded to work with GuardPoint Pro software.

 Cardholder	 DOORS	 READERS	 INPUT	 OUTPUT	 EVENTS
2000	1 - 2 Doors	2 Readers	4	3	1000

DOOR PASS

Stand Alone Controller

Technical Specification

Number of Doors	2
Number of Readers	2
Relay Outputs	3
Alarm Input	4
Event History	1000
Card Holders	2000

Physical

DOORPASS	105 (H) x 175 (W) x 35 (D)
----------	----------------------------

Environmental

Operating Temperatures	-10°C to +55°C
------------------------	----------------

Electrical

Power Supply	12vDC
Input Current	120mA @ 12vDC
Battery Backup	12vDC 7.2Ah

Operational

Communication	RS232, RS485
Serial Printer Output	Yes

Part Numbers

D-PASS	2 reader stand alone controller. 2000 Users. Can be easily upgraded to the PC based solution with GuardPoint Pro
PSU 12/1E	12V DC 1A Power Supply
PSU 12/2	12V DC 2A Power Supply

Options

BBU	Battery Backup
SP-MINI	SensorProx mini proximity reader, bi-colour LED, Externally rated IP65, Optical tamper, Security screw, Read range up to 8cm.
SP-KPV	SensorProx vandal resistant proximity reader with keypad, Satin chrome, bi-colour LED, Blue backlit, Optical tamper, Security screw, Externally rated IP68, Read range up to 5cm.
SP-ISO	SensorProx ISO printable proximity card, suitable for direct dye sublimation printing.
SP-KEY-BL	SensorProx proximity keytag, blue colour with hold for keychain.
